6. “Council” means the city council of Randolph, Iowa.
7. “County” means Fremont County, Iowa.
8. “IAC” means the Iowa Administrative Code.
9. “May” confers a power.
10. “Measure” means an ordinance, amendment, resolution, or motion.

14. "Person" means an individual, firm, partnership, domestic or foreign corporation, company, association or joint stock association, trust, or other legal entity, and includes a trustee, receiver, assignee, or similar representative thereof, but does not include a governmental body.

15. "Public way" includes any street, alley, boulevard, parkway, highway, sidewalk, or other public thoroughfare.

**1.03 CITY POWERS.** The City may, except as expressly limited by the Iowa Constitution, and if not inconsistent with the laws of the Iowa General Assembly, exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges, and property of the City and of its residents, and to preserve and improve the peace, safety, health, welfare, comfort, and convenience of its residents, and each and every provision of this Code of Ordinances shall be deemed to be in the exercise of the foregoing powers and the performance of the foregoing functions.

*(Code of Iowa, Sec. 364.1)*

**1.04 INDEMNITY.** The applicant for any permit or license under this Code of Ordinances, by making such application, assumes and agrees to pay for any injury to or death of any person or persons whomsoever, and any loss of or damage to property whatsoever, including all costs and expenses incident thereto, however arising from or related to, directly, indirectly, or remotely, the issuance of the permit or license, or the doing of anything thereunder, or the failure of such applicant, or the agents, employees, or servants of such applicant, to abide by or comply with any of the provisions of this Code of Ordinances or the terms and conditions of such permit or license, and such applicant, by making such application, forever agrees to indemnify the City and its officers, agents, and employees, and agrees to save them harmless from any and all claims, demands, lawsuits, or liability whatsoever for any loss, damage, injury, or death, including all costs and expenses incident thereto, by reason of the foregoing. The provisions of this section shall be deemed to be a part of any permit or license issued under this Code of Ordinances or any other ordinance of the City, whether expressly recited therein or not.

to appear and defend. A judgment obtained in the suit is conclusive in any action by the City against any person so notified, as to the existence of the defect or other cause of the injury or damage, as to the liability of the City to the plaintiff in the first named action, and as to the amount of the damage or injury. The City may maintain an action against the person notified to recover the amount of the judgment together with all the expenses incurred by the City in the suit.

*(Code of Iowa, Sec. 364.14)*

**1.06 RULES OF CONSTRUCTION.** In the construction of this Code of Ordinances, the rules of statutory construction as set forth in Chapter 4 of the *Code of Iowa* shall be utilized to ascertain the intent of the Council, with the understanding that the term “statute” as used therein will be deemed to be synonymous with the term “ordinance” when applied to this Code of Ordinances.

**1.07 EXTENSION OF AUTHORITY.** Whenever an officer or employee is required or authorized to do an act by a provision of this Code of Ordinances, the provision shall be construed as authorizing performance by a regular assistant, subordinate, or a duly authorized designee of said officer or employee.

**1.08 AMENDMENTS.** All ordinances that amend, repeal, or in any manner affect this Code of Ordinances shall include proper reference to chapter, section, subsection, or paragraph to maintain an orderly codification of ordinances of the City.

**1.10 ALTERING CODE.** It is unlawful for any unauthorized person to change or amend, by additions or deletions, any part or portion of this Code of Ordinances, or to insert or delete pages, or portions thereof, or to alter or tamper with this Code of Ordinances in any manner that will cause the law of the City to be misrepresented.

**1.11 SEVERABILITY.** If any section, provision, or part of this Code of Ordinances is adjudged invalid or unconstitutional, such adjudication will not affect the validity of this Code of Ordinances as a whole or any section, provision, or part thereof not adjudged invalid or unconstitutional.

**1.12 WARRANTS.** If consent to enter upon or inspect any building, structure, or property pursuant to a municipal ordinance is withheld by any person having the lawful right to exclude, the City officer or employee having the duty to enter upon or conduct the inspection may apply to the Iowa District Court in and for the County, pursuant to Section 808.14 of the *Code of Iowa*, for an administrative search warrant. No owner, operator or occupant, or any other person having charge, care, or control of any dwelling unit, rooming unit, structure, building, or premises shall fail or neglect, after presentation of a search warrant, to permit entry therein by the municipal officer or employee.

of the City and does not specify standards to govern the exercise of the power, the power shall be exercised in light of the following standard: The discretionary power to grant, deny, or revoke any matter shall be considered in light of the facts and circumstances then existing and as may be reasonably foreseeable, and due consideration shall be given to the impact upon the public health, safety and welfare, and the decision shall be that of a reasonably prudent person under similar circumstances in the exercise of the police power.

**1.14 STANDARD PENALTY.** Unless another penalty is expressly provided by this Code of Ordinances for violation of any particular provision, section, or chapter, any person failing to perform a duty required by this Code of Ordinances or otherwise violating any provision of this Code of Ordinances or any rule or regulation adopted herein by reference shall, upon conviction, be subject to a fine of at least \$105.00 but not to exceed \$855.00.<sup>†</sup>

*(Code of Iowa, Sec. 364.22[3])*

**3.02 ENVIRONMENTAL VIOLATION.** A municipal infraction that is a violation of Chapter 455B of the *Code of Iowa* or of a standard established by the City in consultation with the Department of Natural Resources, or both, may be classified as an environmental violation. However, the provisions of this section shall not be applicable until the City has offered to participate in informal negotiations regarding the violation or to the following specific violations:

1. A violation arising from noncompliance with a pretreatment standard or requirement referred to in 40 C.F.R. §403.8.

---

<sup>†</sup> **EDITOR'S NOTE:** For criminal penalty for violations of this Code of Ordinances, see Section 1.14.

B. A municipal infraction classified as an environmental violation is punishable by a penalty of not more than \$1,000.00 for each occurrence. However, an environmental violation is not subject to such penalty if all of the following conditions are satisfied:

- (1) The violation results solely from conducting an initial startup, cleaning, repairing, performing scheduled maintenance, testing, or conducting a shutdown of either equipment causing the violation or the equipment designed to reduce or eliminate the violation.
- (2) The City is notified of the violation within 24 hours from the time that the violation begins.
- (3) The violation does not continue in existence for more than eight hours.

A copy of the citation shall be retained by the issuing officer, and the original citation shall be sent to the Clerk of the District Court. **3.05 ALTERNATIVE RELIEF.** Seeking a civil penalty as authorized in this chapter does not preclude the City from seeking alternative relief from the court in the same action. Such alternative relief may include, but is not limited to, an order for abatement or injunctive relief.

*(Code of Iowa, Sec. 364.22[9])*

**3.06 ALTERNATIVE PENALTIES.** This chapter does not preclude a peace officer from issuing a criminal citation for a violation of this Code of Ordinances or regulation if criminal

penalties are also provided for the violation. Nor does it preclude or limit the authority of the City to enforce the provisions of this Code of Ordinances by criminal sanctions or other lawful means.

## CHAPTER 46

### MINORS

#### 46.01 Curfew

#### 46.02 Cigarettes and Tobacco

#### 46.03 Contributing to Delinquency

**46.01 CURFEW.** The Council has determined that a curfew for minors is necessary to promote the public health, safety, morals and general welfare of the City and specifically to reinforce the primary authority and responsibility of adults responsible for minors; to protect the public from the illegal acts of minors committed after the curfew hour; and to protect minors from improper influences and criminal activity that prevail in public places after the curfew hour.

1. Definitions. For use in this section, the following terms are defined:
  - A. “Emergency errand” means, but is not limited to, an errand relating to a fire, a natural disaster, an automobile accident or any other situation requiring immediate action to prevent serious illness, bodily injury, or loss of life.
  - B. “Knowingly” means knowledge that a responsible adult should reasonably be expected to have concerning the whereabouts of a minor in that responsible adult’s custody. It is intended to continue to hold the neglectful or careless adult responsible for a minor to a reasonable standard of adult responsibility through an objective test. It is therefore no defense that an adult responsible for a minor was completely indifferent to the activities or conduct or whereabouts of the minor.
  - C. “Minor” means any unemancipated person under the age of 17 years.
  - D. “Nonsecured custody” means custody in an unlocked multipurpose area, such as a lobby, office or interrogation room that is not designed, set aside, or used as a secure detention area, and the person arrested is not physically secured during the period of custody in the area; the person is physically accompanied by a law enforcement officer or a person employed by the facility where the person arrested is being held; and the use of the area is limited to providing nonsecured custody only while awaiting transfer to an appropriate juvenile facility or to court, for contacting of and release to the person’s parents or other responsible adult or for other administrative purposes; but not for longer than six hours without the oral or written order of a judge or magistrate authorizing the detention. A judge shall not extend the period of time in excess of six hours beyond the initial six-hour period.
  - E. “Public place” includes stores, parking lots, parks, playgrounds, streets, alleys, and sidewalks dedicated to public use and also includes such parts of buildings and other premises, whether publicly or privately owned, that are used by the general public or to which the general public is invited commercially for a fee or otherwise; or in or on which the general public is permitted without specific invitation; or to which the general public has access. For purposes of this section, a vehicle or other conveyance is considered to be a public place when in the areas defined above.

- F. "Responsible adult" means a parent, guardian or other adult specifically authorized by law or authorized by a parent or guardian to have custody or control of a minor.
2. Curfew Established. It is unlawful for any minor to be or remain upon any of the alleys, streets, or public places or to be in places of business and amusement in the City between the hours of 12:01 a.m. and 5:00 a.m.
3. Exceptions. The following are exceptions to the curfew:
- A. The minor is accompanied by a responsible adult.
  - B. The minor is on the sidewalk or property where the minor resides or on either side of the place where the minor resides and the adult responsible for the minor has given permission for the minor to be there.
  - C. The minor is present at or is traveling between home and one of the following:
    - (1) Minor's place of employment in a business, trade or occupation in which the minor is permitted by law to be engaged or, if traveling, within one hour after the end or before the beginning of work;
    - (2) Minor's place of religious activity or, if traveling, within one hour after the end or before the beginning of the religious activity;
    - (3) Governmental or political activity or, if traveling, within one hour after the end or before the beginning of the activity;
    - (4) School activity or, if traveling, within one hour after the end or before the beginning of the activity;
    - (5) Assembly such as a march, protest, demonstration, sit-in or meeting of an association for the advancement of economic, political, religious or cultural matters, or for any other activity protected by the First Amendment of the U.S. Constitution guarantees of free exercise of religion, freedom of speech, freedom of assembly or, if traveling, within one hour after the end or before the beginning of the activity.
  - D. The minor is on an emergency errand for a responsible adult;
  - E. The minor is engaged in interstate travel through the City beginning, ending or passing through the City when such travel is by direct route.
4. Responsibility of Adults. It is unlawful for any responsible adult knowingly to permit or to allow a minor to be in any public place in the City within the time periods prohibited by this section unless the minor's presence falls within one of the above exceptions.
5. Enforcement Procedures.
- A. Determination of Age. In determining the age of the juvenile and in the absence of convincing evidence such as a birth certificate or driver's license, a law enforcement officer on the street shall, in the first instance, use his or her best judgment in determining age.
  - B. Grounds for Arrest; Conditions of Custody. Grounds for arrest are that the person refuses to sign the citation without qualification; persists in violating

the ordinance; refuses to provide proper identification or to identify himself or herself; or constitutes an immediate threat to the person's own safety or to the safety of the public. A law enforcement officer who arrests a minor for a curfew violation may keep the minor in custody either in a shelter care facility or in any nonsecured setting. The officer shall not place bodily restraints, such as handcuffs, on the minor unless the minor physically resists or threatens physical violence when being taken into custody. A minor shall not be placed in detention following a curfew violation.

C. Notification of Responsible Adult. After a minor is taken into custody, the law enforcement officer shall notify the adult responsible for the minor as soon as possible. The minor shall be released to the adult responsible for the minor upon the promise of such person to produce the child in court at such time as the court may direct.

  - D. A statement that failure of the owner, lienholders, or claimants to exercise their right to reclaim the vehicle or personal property within the time provided shall be deemed a waiver by the owner, lienholders, and claimants of all right, title, claim, and interest in the vehicle or personal property.
  - E. A statement that failure to reclaim the vehicle or personal property is deemed consent for the police authority or private entity to sell the vehicle at a public auction or dispose of the vehicle to a demolisher and to dispose of the personal property by sale or destruction.

If the persons receiving notice do not ask for a hearing or exercise their right to reclaim the vehicle or personal property within the 10-day reclaiming period, the owner, lienholders, or claimants shall no longer have any right, title, claim, or interest in or to the vehicle or the personal property.

6. A court in any case in law or equity shall not recognize any right, title, claim, or interest of the owner, lienholders, or claimants after the expiration of the 10-day reclaiming period.

7. If it is impossible to determine with reasonable certainty the identities and addresses of the last registered owner and all lienholders, notice by one publication in one newspaper of general circulation in the area where the vehicle was abandoned shall be sufficient to meet all requirements of notice under Subsection 2 of this section. The published notice may contain multiple listings of abandoned vehicles, but shall be published within the same time requirements and contain the same information as prescribed for mailed notice in Subsection 2 of this section.

*(Code of Iowa, Sec. 321.89[3])*

**80.04 RECLAMATION OF ABANDONED VEHICLES.** Prior to driving an abandoned vehicle away from the premises, a person who received (or who is reclaiming the vehicle on behalf of a person who received) notice under Section 80.03 shall present to the police authority or private entity, as applicable, the person's valid driver's license and proof of financial liability coverage as provided in Section 321.20B of the *Code of Iowa*.

The police authority shall give the applicant a certificate of authority. The applicant shall then apply to the County Treasurer for a junking certificate and shall surrender the certificate of authority in lieu of the certificate of title.

*(Code of Iowa, Sec. 321.90[2e])*

**80.08 PROCEEDS FROM SALES.** Proceeds from the sale of any abandoned vehicle shall be applied to the expense of auction, cost of towing, preserving, storing, and notification required, in accordance with State law. Any balance shall be held for the owner of the motor vehicle or entitled lienholder for 90 days, and then shall be deposited in the State Road Use Tax

*(Code of Iowa, Sec. 321.89[4])*

**80.09 DUTIES OF DEMOLISHER.** Any demolisher who purchases or otherwise acquires an abandoned motor vehicle for junk shall junk, scrap, wreck, dismantle, or otherwise demolish such motor vehicle. **90.15 INTERIOR VALVE.** There shall be installed a shut-off valve on every service pipe inside the building as close to the entrance of the pipe within the building as possible and so located that the water can be shut off conveniently. Where one service pipe supplies more than one customer within the building, there shall be separate valves for each such customer so that service may be shut off for one without interfering with service to the others.

**90.16 INSPECTION AND APPROVAL.** All water service pipes and their connections to the water system must be inspected and approved in writing by the Superintendent before they are covered, and the Superintendent shall keep a record of such approvals. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. A shallow well is a well located and constructed in such a manner that there is not a continuous layer of low permeability soil or rock (or equivalent retarding mechanism acceptable to the department) at least five feet thick, the top of which is located at least 25 feet below the normal ground surface and above the aquifer from which water is to be drawn.

## CHAPTER 96

# BUILDING SEWERS AND CONNECTIONS

96.01 Permit

96.02 Permit Fee

96.03 Plumber Required

96.04 Excavations

96.05 Connection Requirements

96.06 Interceptors Required

96.07 Sewer Tap

96.08 Inspection Required

96.09 Property Owner's Responsibility

96.10 Abatement of Violations

**96.01 PERMIT.** No unauthorized person shall uncover, make any connection with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the City. The application for the permit shall set forth the following information:

1. The location and description of the property to be connected with the sewer system.
2. The purpose for which the sewer is to be used.
3. Plans, specifications, or other information considered pertinent.

The permit shall require the owner to complete construction and connection of the building sewer to the public sewer within 60 days after the issuance of the permit, except that when a property owner makes sufficient showing that due to conditions beyond the owner's control or peculiar hardship, such time period is inequitable or unfair, an extension of time within which to comply with the provisions herein may be granted. Any sewer connection permit may be revoked at any time for a violation of these chapters.

**96.02 PERMIT FEE.** The person who makes the application shall pay a fee in the amount of \$0.00 to the Clerk to cover the cost of issuing the permit and supervising, regulating, and inspecting the work.

**96.03 PLUMBER REQUIRED.** All installations of building sewers and connections to the public sewer shall be made by a State-licensed plumber.

**96.04 EXCAVATIONS.** All trench work, excavation, and backfilling required for the installation of a building sewer shall be performed in accordance with the provisions of the *State Plumbing Code* and the provisions of Chapter 135 of this Code of Ordinances.

**96.05 CONNECTION REQUIREMENTS.** Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. **Old Building Sewers.** Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.
2. **Separate Building Sewers.** A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway. In such cases the

building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.

3. Installation. The installation and connection of the building sewer to the public sewer shall conform to the requirements of the *State Plumbing Code* and applicable rules and regulations of the City. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.

4. Water Lines. When possible, building sewers should be laid at least 10 feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least 12 inches above the top of the building sewer.

5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four inches.

6. Alignment and Grade. All building sewers shall be laid to a straight line to meet the following:

A. Recommended grade at one-fourth inch per foot.

B. Minimum grade of one-eighth inch per foot.

C. Minimum velocity of two feet per second with the sewer half full.

D. Any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.

7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.

8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.

9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in the *State Plumbing Code* except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:

A. Clay sewer pipe – A.S.T.M. C-700 (extra strength).

B. Extra heavy cast iron soil pipe – A.S.T.M. A-74.

C. Ductile iron water pipe – A.W.W.A. C-151.

D. P.V.C. – SDR26 – A.S.T.M. D-3034.

10. Bearing Walls. No building sewer shall be laid parallel to or within three feet of any bearing wall that might thereby be weakened.

11. Jointing. Fittings, type of joint and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.

12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified

clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.

13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

**96.06 INTERCEPTORS REQUIRED.** Grease, oil, sludge, and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand, or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as specified in the *State Plumbing Code*, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

**96.07 SEWER TAP.** Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

**96.08 INSPECTION REQUIRED.** All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid underground shall be covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

**96.09 PROPERTY OWNER'S RESPONSIBILITY.** All costs and expenses incident to the installation, connection, and maintenance of the building sewer, from the main to the building served, shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

**96.10 ABATEMENT OF VIOLATIONS.** Construction or maintenance of building sewer lines, whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within 30 days after date of official notice from the Council of such violation. If not made within such time, the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

**97.01 STORMWATER.** No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Stormwater and all other unpolluted drainage shall be discharged to such sewers that are specifically designated as combined sewers or storm sewers or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

**97.02 SURFACE WATERS EXCEPTION.** Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where such discharge is deemed necessary or advisable for purposes of flushing, but any permit so issued shall be subject to revocation at any time when deemed to be in the best interests of the sewer system.

**97.03 PROHIBITED DISCHARGES.** No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides (CN) in excess of two milligrams per liter as CN in the wastes as discharged to the public sewer.
3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.

  - B. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to:
    - (1) Reduce the biochemical oxygen demand to 300 parts per million by weight; or
    - (2) Reduce the suspended solids to 350 parts per million by weight; or
    - (3) Control the quantities and rates of discharge of such waters or wastes.
  - A. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent, and no construction of such facilities shall be commenced until said approvals are obtained in writing.

**97.04 RESTRICTED DISCHARGES.** No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than 150°F (65°C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of 100 milligrams per liter or 600 milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances that may solidify or become viscous at temperatures between 32°F and 150°F (0°C to 65°C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half inch in any dimension.

5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution, whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits that may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of State, federal, or other public agencies of jurisdiction for such discharge to the receiving waters.
8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or federal regulations.
9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.
10. Unusual Wastes. Materials that exert or cause:
  - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
  - B. Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).
  - C. Unusual B.O.D., chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
  - D. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.
11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance that, either singly or by interaction with other wastes, is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. Damaging Substances. Any waters, wastes, materials, or substances that react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration, or create any other condition deleterious to structures and treatment processes.
13. Untreatable Wastes. Waters or wastes containing substances that are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

**97.05 RESTRICTED DISCHARGES; POWERS OF SUPERINTENDENT.** If any waters or wastes are discharged or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage

works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;
2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;
3. Controls Imposed. Require control over the quantities and rates of discharge; and/or
4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

**97.06 SPECIAL FACILITIES.** If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

**97.07 CONTROL MANHOLES.** When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

**97.08 TESTING OF WASTES.** All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a 24-hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples.)

3. Inadequate Maintenance. Whenever a building or structure, used or intended to be used for dwelling purposes, because of dilapidation, decay, damage, faulty construction, or otherwise, is determined by any health officer to be unsanitary, unfit for human habitation or in such condition that it is likely to cause sickness or disease.
4. Fire Hazard. Whenever any building or structure, because of dilapidated condition, deterioration, damage, or other cause, is determined by the Fire Marshal or Fire Chief to be a fire hazard.
5. Abandoned. Whenever any portion of a building or structure remains on a site after the demolition or destruction of the building or structure or whenever any building or structure is abandoned for a period in excess of six months so as to constitute such building or portion thereof an attractive nuisance or hazard to the public.

**145.04 NOTICE TO OWNER.** The enforcement officer shall examine or cause to be examined every building or structure or portion thereof reported as dangerous or damaged and, if such is found to be an unsafe building as defined in this chapter, the enforcement officer shall give to the owner of such building or structure written notice stating the defects thereof. This notice may require the owner or person in charge of the building or premises, within 48 hours

or such reasonable time as the circumstances require, to commence either the required repairs or improvements or demolition and removal of the building or structure or portions thereof, and all such work shall be completed within 90 days from date of notice, unless otherwise stipulated by the enforcement officer. If necessary, such notice shall also require the building, structure, or portion thereof to be vacated forthwith and not reoccupied until the required repairs and improvements are completed, inspected, and approved by the enforcement officer.

*(Code of Iowa, Sec. 364.12[3h])*

1. Notice Served. Such notice shall be served by sending by certified mail to the owner of record, according to Section 364.12[3h] of the *Code of Iowa*, if the owner is found within the City limits. If the owner is not found within the City limits, such service may be made upon the owner by registered mail or certified mail. The designated period within which said owner or person in charge is required to comply with the order of the enforcement officer shall begin as of the date the owner receives such notice.
2. Hearing. Such notice shall also advise the owner that he or she may request a hearing before the Council on the notice by filing a written request for hearing within the time provided in the notice.

**145.05 CONDUCT OF HEARING.** If requested, the Council shall conduct a hearing in accordance with the following:

1. Notice. The owner shall be served with written notice specifying the date, time and place of hearing.
2. Owner's Rights. At the hearing, the owner may appear and show cause why the alleged nuisance shall not be abated.
3. Determination. The Council shall make and record findings of fact and may issue such order as it deems appropriate.<sup>†</sup>

**145.06 POSTING OF SIGNS.** The enforcement officer shall cause to be posted at each entrance to such building a notice to read: "DO NOT ENTER. UNSAFE TO OCCUPY. CITY OF RANDOLPH, IOWA." Such notice shall remain posted until the required demolition, removal or repairs are completed. Such notice shall not be removed without written permission of the enforcement officer and no person shall enter the building except for the purpose of making the required repairs or of demolishing the building.

**145.07 RIGHT TO DEMOLISH; MUNICIPAL INFRACTION.** In case the owner fails, neglects, or refuses to comply with the notice to repair, rehabilitate, or to demolish and remove the building or structure or portion thereof, the Council may order the owner of the building prosecuted as a violator of the provisions of this chapter and may order the enforcement officer to proceed with the work specified in such notice. A statement of the cost of such work shall be transmitted to the Council. As an alternative to this action, the City may utilize the municipal infraction process to abate the nuisance.

*(Code of Iowa, Sec. 364.12[3h])*

<sup>†</sup> **EDITOR'S NOTE:** Suggested forms of notice and of a resolution and order of the Council for the administration of this chapter are provided in the APPENDIX to this Code of Ordinances. Caution is urged in the use of this procedure. We recommend you review the situation with your attorney before initiating procedures and follow his or her recommendation carefully.

**145.08 COSTS.** Costs incurred under Section 145.07 shall be paid out of the City treasury. Such costs shall be charged to the owner of the premises involved and levied as a special assessment against the land on which the building or structure is located, and shall be certified to the County Treasurer for collection in the manner provided for other taxes. In addition, the City may take any other action deemed appropriate to recover costs incurred.

*(Code of Iowa, Sec. 435.1)*

1. “Manufactured home” means a factory-built structure built under the authority of 42 U.S.C. Sec. 5403 which was constructed on or after June 15, 1976, and is required by federal law to display a seal from the United States Department of Housing and Urban Development.
2. “Manufactured home community” means any site, lot, field, or tract of land under common ownership upon which 10 or more occupied manufactured homes are harbored, either free of charge or for revenue purposes, and includes any building, structure, or enclosure used or intended for use as part of the equipment of the manufactured home community.
3. “Mobile home” means any vehicle without motive power used or so manufactured or constructed as to permit its being used as a conveyance upon the public streets and highways and so designed, constructed, or reconstructed as will permit the vehicle to be used as a place for human habitation by one or more persons; but also includes any such vehicle with motive power not registered as a motor vehicle in Iowa. A mobile home means any such vehicle built before June 15, 1976, which was not built to a mandatory building code and which contains no State or federal seals.
4. “Mobile home park” means any site, lot, field, or tract of land upon which three or more mobile homes or manufactured homes, or a combination of any of these homes, are placed on developed spaces and operated as a for-profit enterprise with water, sewer or septic, and electrical services available.

The manufactured home community or mobile home park shall meet the requirements of any zoning regulations that are in effect.

**146.02 CONVERSION TO REAL PROPERTY.** A mobile home or manufactured home that is located outside a manufactured home community or mobile home park shall be converted to real estate by being placed on a permanent foundation and shall be assessed for real estate taxes except in the following cases:

2. Existing Homes. A taxable mobile home or manufactured home that is located outside of a manufactured home community or mobile home park as of January 1, 1995,

shall be assessed and taxed as real estate, but is exempt from the permanent foundation requirement of this chapter until the home is relocated.

**146.03 FOUNDATION REQUIREMENTS.** A mobile home or manufactured home located outside of a manufactured home community or mobile home park shall be placed on a permanent frost-free foundation system that meets the support and anchorage requirements as recommended by the manufacturer or required by the *State Building Code*. The foundation system must be visually compatible with permanent foundation systems of surrounding residential structures. Any such home shall be installed in accordance with the requirements of the *State Building Code*.

**155.01 PURPOSE.** The purpose of this chapter is to provide and establish reasonable rules and regulations for the erecting and altering of buildings in the City, as well as the use and occupancy of such buildings.

*(Code of Iowa, Sec. 364.1)*

**155.02 BUILDING OFFICIAL.** The Clerk is the Building Official and is responsible for the administration and enforcement of this chapter.

**155.03 PERMIT REQUIRED.** No building or other structure shall be erected or altered within the City without first receiving a permit. A permit is required for work such as new homes, additions, patios, decks, porches, garages, accessory buildings, or for work that would change the outside dimensions of an existing building. A permit is not required for interior remodeling, roofing, window replacement, or siding a building. The construction of a fence does not require a building permit, but the construction of such fence shall comply with standards established in this chapter.

**155.04 APPLICATION.** Application shall be made in writing, filed with the Building Official and contain the following information:

1. Name. The name and address of the applicant.
2. Location. The street address and full legal description of the property.
3. Proposed Work. The nature of work proposed to be done.
4. Use. The use for which the structure is or will be used.
5. Plans. Application for permits shall be accompanied by such drawings of the proposed work, including such floor plans, sections, elevations and structural details, as the Building Official may require. There shall also be filed a diagram or sketch in a form and size acceptable to the Building Official with all dimensions figured, showing accurately the size and location of the lot to be built upon, and the location and size of the building or structure to be erected or altered.

**155.05 FEE.** A permit fee, as established by resolution of the Council, shall be paid to the City prior to issuance of the permit. In the event that work has commenced without first obtaining a permit, the permit fee shall be doubled. The payment of such double fee shall not relieve any persons from fully complying with the requirements of this chapter in the execution of the work.

**155.06 AMENDMENTS.** Nothing shall prohibit the filing of amendments to an application or to a plan or other record accompanying same, at any time before the completion of the work for which the permit was sought. Such amendments, after approval, shall be filed with and be deemed a part of the original application.

**155.07 LIMITATION ON PERMIT.** In the event that construction covered by a permit is not initiated and underway within one year from the date of issuance of a permit, such permit shall be deemed void and of no effect. All permits shall expire and be void six months after issuance by the Clerk. If construction is not completed a new application and fee must be submitted.

**155.08 COMPLETION OF EXISTING BUILDINGS.** Nothing contained in this chapter shall require any change in the plans, construction, size or designated use of a building, for which a valid permit has been issued or lawful approval given before June 1, 1980; provided, however, construction under such permit or approval shall have been started within six (6) months and the ground story framework, including structural parts of the second floor, shall have been completed within one year and the entire building completed within two (2) years after June 1, 1980.

**155.09 APPLICATION APPROVED.** It is the duty of the Building Official to examine applications for permits within a reasonable time after filing. If, after examination, the Building Official finds no objection to the same and it appears that the proposed work will be in compliance with the laws and ordinances applicable thereto, the Building Official shall forward findings to the Council for its approval or disapproval.

**155.10 ACTION BY COUNCIL.** After receiving the findings of the Building Official, the Council shall, within a reasonable time, either approve or disapprove the application. If disapproved, the Council shall state its reasons for disapproval and notify the applicant of same. If approved, the Council shall instruct the Building Official to issue the building permit to the applicant. Said permit shall be issued in duplicate, one copy for the applicant and one copy to be retained in the City records.

**155.11 RESTRICTIONS.** No permit for the erection or alteration of a building or similar structure shall be granted unless it definitely appears that such erection or alteration shall not cause or be the source of the following:

*(Code of Iowa, Sec. 414.24)*

1. Noise. Any undue noise.
2. Electrical Interference. Any undue radio or television interference.
3. Odors. Any offensive odors.
4. Refuse. Any offensive or unsightly refuse.
5. Smoke. Any offensive or undue smoke.
6. Fire Hazard. Any fire hazard.

7. Appearance. Any unsightliness due to the appearance of any building or structure on the premises.
8. Congestion. Any undue gathering, congregating, parking of cars or undue congestion of people or traffic.
9. Other. Any effect that will be obnoxious, offensive, dangerous, or injurious to the health, welfare, and safety of citizens.

**155.12 CONDITION OF THE PERMIT.** All work performed under any permit shall conform to the approved application and plans, and approved amendments thereof. The location of all new construction as shown on the approved plan, or an approved amendment thereof, shall be strictly adhered to. It is unlawful to reduce or diminish the area of a lot or plot of which a plan has been filed and has been used as the basis for a permit, unless a revised plan showing the proposed change in conditions shall have been filed and approved, provided that this shall not apply when the lot is reduced by reason of a street opening or widening or other public improvement.

**155.13 REVOCATION.** The Building Official may revoke a permit or approval issued under the provisions of this chapter in case there has been any false statement or misrepresentation as to a material fact in the application or plans on which the permit or approval was based.

**155.14 PERMIT VOID.** The permit becomes null and void if work or construction authorized is not commenced within 60 days, or if construction or work is suspended or abandoned for a period of 120 days at any time after work is commenced, or if the work is not completed within the time frame specified in the building permit. Extensions to these time frames may be granted by an affirmative vote of three-fourths of all of the members of the Council.

**155.15 RESIDENTIAL DWELLING STANDARDS.** All residential dwelling units shall meet the following minimum standards:

1. The dwelling unit must have a minimum width of 22 feet for at least 65 percent of the length of the dwelling unit, said dimension to be exclusive of attached garages, porches or other accessory structures.
2. All dwelling units including attached garages shall be placed on a permanent frost-free foundation.
3. All dwelling units shall provide for a minimum of 900 square feet of floor space.
4. All dwelling units shall have a minimum roof pitch of 3:12. This requirement shall not apply to manufactured housing if the housing otherwise complies with 42 U.S.C. Sec. 5403.
5. All dwelling units shall have an exterior wall covering that is either:
  - A. Wood or masonry finish or its appearance, and/or
  - B. Vertical or horizontal grooved siding or lap siding or its appearance.

The use of flat or corrugated sheet metal for the exterior walls or roof covering is prohibited.

**155.16 RESTRICTED RESIDENCE DISTRICT.** The following area is hereby defined and established as a restricted residence district:

All that area lying within the corporate limits of the City except the following described area:

*An area bounded by Randolph Street, Washington Street, "G" Street and the Burlington Northern railroad tracks, including however, both sides of Randolph Street.*

**155.17 PROHIBITED USE.** No building or other structure, except residences, schoolhouses, churches, and other similar structures, shall be erected, altered, used, or occupied within the restricted residence district as defined herein without first receiving from the Council a special use permit. No such special use permit shall be issued without the affirmative vote of three-fourths of all of the members of the Council.

*(Code of Iowa, Sec. 414.24)*

**155.18 EXCEPTIONS.** The provisions of the preceding section shall have no application to any business, store, shop, or factory existing and in operation in a restricted residence district on June 1, 1980, except in the matter of reconstruction, alteration or change in use of the structure.

**155.19 PROTEST.** No special use permit shall be granted when 60 percent of the residential real estate owners in the restricted residence district who are located within 600 feet of the proposed building or occupancy object thereto, except by a unanimous vote of all of the members of the Council.

**155.20 NOTICE REQUIREMENTS.** Whenever a restricted residence district is established or its boundaries changed, a public hearing must be held, notice of which shall be given at least seven days in advance of the hearing and in the manner prescribed in Section 18.05 of this Code of Ordinances. In no case shall the public hearing be held earlier than the next regularly scheduled City Council meeting following the published notice.

*(Code of Iowa, Sec. 414.24)*

**155.21 FRONT YARD REQUIREMENTS.** Within the restricted residence district there shall be a front yard of not less than 16 feet (measured from the front lot line), except as follows:

*(Code of Iowa, Sec. 414.24)*

1. **Between Existing Buildings.** Where a building is to be erected on a parcel of land that is within 100 feet of existing buildings on both sides, the minimum front yard shall be a line drawn between the closest front corners of the adjacent buildings on the two sides, or
2. **Adjacent to Existing Building.** Where a building is to be erected on a parcel of land that is within 100 feet of an existing building on one side only within the same block, such building may be erected as close to the street as a line drawn from the closest front corner of that building to a point 10 feet back from the front lot line measured at the center of the lot on which the proposed building is to be erected.
3. **Double Frontage.** Where lots have a double frontage, the front yard as required herein shall be provided on both streets.

**155.22 SIDE YARD REQUIREMENTS.** Within the restricted residence district no building shall be erected closer than 10 feet to either side lot line.

*(Code of Iowa, Sec. 414.24)*

**155.23 REAR YARD REQUIREMENTS.** Within the restricted residence district there shall be a rear yard provided for each principal building of not less than 16 feet (when measured from the rear lot line) or 10 percent of the depth of the lot, whichever amount is smaller.

*(Code of Iowa, Sec. 414.24)*

**155.24 MINIMUM STANDARDS OF PRINCIPAL STRUCTURE.** No dwelling shall be erected, placed, or occupied within the restricted residence district unless such dwelling shall have a minimum dimension of 22 feet measured at the narrowest point of such dwelling. Said dimension shall be exclusive of attached garages, porches or other accessory structures. All principal structures shall be placed on a permanent frost-free foundation.

**155.25 GARAGES AND OTHER ACCESSORY BUILDINGS.** A garage or other similar accessory building may be built in a rear yard, but such garage or accessory building shall not occupy more than 30 percent of a rear yard. In addition, the garage or accessory building shall not be nearer than five feet to any side or rear lot line, or closer than eight feet to any building unless it is connected thereto. The maximum size of a garage or accessory building shall be 32 feet by 36 feet and 12 feet in height. A garage or accessory building may be built in a side yard if compliance is made with the same side yard requirements as for the principal building.

**155.26 FENCES.**

1. Purpose. The purpose of this section is to provide for the regulation of fences within the City in furtherance of the public health, safety, and welfare. It is unlawful for any person to erect, construct, or maintain a fence which does not meet the standards set out in this section or which has not been constructed according to the procedure prescribe in this section.

2. Permit to Construct Fence. Anyone seeking to erect a fence shall first submit to the Council a written plan outlining the location of the fence, a specific description of the type of material to be used and the approximate time of construction. The plan shall indicate the location of streets, intersections, sidewalks, property lines, and adjacent buildings relative to the fence. The plan shall indicate the height of the fence and approximate post locations and spacing. The Council shall consider any such permits at the next regularly scheduled Council meeting. A special meeting of the Mayor and two Council members may be convened to approve a permit if waiting until the next meeting would cause a hardship in the opinion of the Mayor. The Council shall act upon the permits at the next regularly scheduled meeting and permit shall either be issued or denied, and reasons given. Notice of the decision shall be delivered in person or shall be mailed to the applicant by United States regular mail. The Council shall consider at least the following factors in approving a permit:

- A. Safety;

Said variance must include the reason for a variance, why the variance was granted and specific description of the property for which the variance was granted.

**155.28 CERTIFYING ORDINANCES.** Within 15 days of the effective date of the adoption of any amendments to the provisions of this chapter, the Clerk shall certify such amendment to the County Recorder.

*(Code of Iowa, Sec. 380.11)*

25. “Minor projects” means small development activities (except for filling, grading, and excavating) valued at less than \$500.00.
26. “New construction” (new buildings, factory-built home parks) means those structures or development for which the start of construction commenced on or after the effective date of the first floodplain management regulations adopted by the community.
27. “New factory-built home park or subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of the effective date of the first floodplain management regulations adopted by the community.
28. “Recreational vehicle” means a vehicle which is:
- A. Built on a single chassis;

- B. 400 square feet or less when measured at the largest horizontal projection;
  - C. Designed to be self-propelled or permanently towable by a light duty truck; and
  - D. Designed primarily not for use as a permanent dwelling but as a temporary living quarters for recreational, camping, travel, or seasonal use.
29. "Routine maintenance of existing buildings and facilities" means repairs necessary to keep a structure in a safe and habitable condition that do not trigger a building permit, provided they are not associated with a general improvement of the structure or repair of a damaged structure. Such repairs include:
- A. Normal maintenance of structures such as re-roofing, replacing roofing tiles and replacing siding;
  - B. Exterior and interior painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work;
  - C. Basement sealing;
  - D. Repairing or replacing damaged or broken window panes;
  - E. Repairing plumbing systems, electrical systems, heating, or air conditioning systems and repairing wells or septic systems.
30. "Special Flood Hazard Area" (SFHA) means the land within the City subject to the base flood. This land is identified on the City's Flood Insurance Rate Map as Zone A, A1-30, AE, AH, AO, AR, and/or A99.
31. "Start of construction" includes substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement, was within 180 days of the permit date. The actual start means either the first placement or permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation. Permanent construction does not include land preparation, such as clearing, grading, and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of the building, whether that alteration affects the external dimensions of the building.
32. "Structure" means anything constructed or erected on the ground or attached to the ground, including, but not limited to, buildings, factories, sheds, cabins, factory-built homes, storage tanks, grain storage facilities, and/or other similar uses.
33. "Substantial damage" means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damage condition would equal or exceed 50 percent of the market value of the structure before the damage occurred. Volunteer labor and donated materials shall be included in the estimated cost of repair.

34. “Substantial improvement” means any improvement in to a structure which satisfies either of the following criteria:

A. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure either (i) before the “start of construction” of the improvement, or (ii) if the structure has been “substantially damaged” and is being restored, before the damage occurred.

The term does not, however, include any project for improvement of a structure to correct existing violations of State or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions. The term also does not include any alteration of a historic structure, provided the alteration will not preclude the structure’s designation as a historic structure.

B. Any addition which increases the original floor area of a building by 25 percent or more. All additions constructed after the effective date of the first floodplain management regulations adopted by the community shall be added to any proposed addition in determining whether the total increase in original floor space would exceed 25 percent.

35. “Variance” means a grant of relief by a community from the terms of the floodplain management regulations.

36. “Violation” means the failure of a structure or other development to be fully compliant with the community’s floodplain management regulations.

#### **160.02 STATUTORY AUTHORITY, FINDINGS OF FACT, AND PURPOSE.**

1. The Legislature of the State of Iowa has in Chapter 364 of the *Code of Iowa*, as amended, delegated the power to cities to exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges, and property of the City or of its residents, and to preserve and improve the peace, safety, health, welfare, comfort, and convenience of its residents.

2. Findings of Fact.

A. The flood hazard areas of the City are subject to periodic inundation which can result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base all of which adversely affect the public health, safety, and general welfare of the community.

B. These flood losses, hazards, and related adverse effects are caused by: (i) the occupancy of flood hazard areas by uses vulnerable to flood damages which create hazardous conditions as a result of being inadequately elevated or otherwise protected from flooding; and (ii) the cumulative effect of obstructions on the floodplain causing increases in flood heights and velocities.

C. The ordinance codified in this chapter relies upon engineering methodology for analyzing flood hazards which is consistent with the standards established by the Department of Natural Resources.

3. Statement of Purpose. It is the purpose of this chapter to protect and preserve the rights, privileges and property of the City and its residents and to preserve and

improve the peace, safety, health, welfare, and comfort and convenience of its residents by minimizing those flood losses described in Paragraph 2(A) of this section with provisions designed to:

- A. Reserve sufficient floodplain area for the conveyance of flood flows so that flood heights and velocities will not be increased substantially.
- B. Restrict or prohibit uses which are dangerous to health, safety, or property in times of flood or which cause excessive increases in flood heights or velocities.
- C. Require that uses vulnerable to floods, including public facilities which serve such uses, be protected against flood damage at the time of initial construction or substantial improvement.
- D. Protect individuals from buying lands which may not be suited for intended purposes because of flood hazard.
- E. Assure that eligibility is maintained for property owners in the community to purchase flood insurance through the National Flood Insurance Program.

### **160.03 GENERAL PROVISIONS.**

1. **Lands to Which Chapter Applies.** The provisions of this chapter shall apply to all areas having special flood hazards within the jurisdiction of the City. For purposes of this chapter, the special flood hazard areas are those areas designated as Zone A on the Flood Insurance Rate Map (FIRM) for Fremont County and Incorporated Areas, City of Randolph, Panels 19071C0064C, 0068C, 0177C, 0181C, dated February 25, 2022, which were prepared as part of the Fremont County Flood Insurance Study, shall be used to identify such flood hazard areas, and all areas shown thereon to be within the boundaries of the base flood shall be considered as having significant flood hazards. The Flood Insurance Study for Fremont County is hereby adopted by reference and is made a part of this chapter for the purpose of administering floodplain management regulations.
2. **Rules for Interpretation of Flood Hazard Boundaries.** The boundaries of the Special Flood Hazard areas shall be determined by scaling distances on the official Flood Insurance Rate Map. When an interpretation is needed as to the exact location of a boundary, the Mayor shall make the necessary interpretation. The Council shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Mayor in the enforcement or administration of this chapter.
3. **Compliance.** No structure or land shall hereafter be used, and no structure shall be located, extended, converted, or structurally altered, without full compliance with the terms of this chapter and other applicable regulations which apply to uses within the jurisdiction of this chapter.
4. **Abrogation and Greater Restrictions.** It is not intended by this chapter to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this chapter imposes greater restrictions, the provisions of this chapter shall prevail. All other ordinances inconsistent with this chapter are hereby repealed to the extent of the inconsistency only.

5. Interpretation. In their interpretation and application, the provisions of this chapter shall be held to be minimum requirements and shall be liberally construed in favor of the governing body and shall not be deemed a limitation or repeal of any other powers granted by State statutes.
6. Warning and Disclaimer of Liability. The standards required by this chapter are considered reasonable for regulatory purposes. This chapter does not imply that areas outside the designated special flood hazard areas will be free from flooding or flood damages. This chapter shall not create liability on the part of the City or any officer or employee thereof for any flood damages that result from reliance on this chapter or any administrative decision lawfully made thereunder.
7. Severability. If any section, clause, provision, or portion of this chapter is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this chapter shall not be affected thereby.

#### **160.04 ADMINISTRATION.**

1. Appointment, Duties and Responsibilities of Administrator.
  - A. The Mayor is hereby appointed to implement and administer the provisions of this chapter and will herein be referred to as the Administrator.
  - B. Duties and responsibilities of the Administrator shall include, but not necessarily be limited to the following:
    - (1) Review all floodplain development permit applications to assure that the provisions of this chapter will be satisfied.
    - (2) Review floodplain development applications to assure that all necessary permits have been obtained from federal, State, and local governmental agencies including approval when required from the Department of Natural Resources for floodplain construction.
    - (3) Record and maintain a record of: (i) the elevation (in relation to North American Vertical Datum 1988) of the lowest floor (including basement) of all new or substantially improved structures; or (ii) the elevation to which new or substantially improved structures have been floodproofed.
    - (4) Notify adjacent communities/counties and the Department of Natural Resources prior to any proposed alteration or relocation of a watercourse and submit evidence of such notifications to the Federal Emergency Management Agency.
    - (5) Keep a record of all permits, appeals and such other transactions and correspondence pertaining to the administration of this chapter.
    - (6) Submit to the Federal Insurance Administrator an annual report concerning the community's participation, utilizing the annual report form supplied by the Federal Insurance Administrator.
    - (7) Notify the Federal Insurance Administrator of any annexations or modifications to the community's boundaries.

(8) Review subdivision proposals to ensure such proposals are consistent with the purpose of this chapter and advise the Council of potential conflict.

(9) Maintain the accuracy of the community's Flood Insurance Rate Maps when:

- a. Development placed within the Floodway results in an increase in the base flood elevations or alteration to the floodway boundary.
- b. Development placed in Zones A, AE, AH, and A1-30 that does not include a designated floodway that will cause a rise of more than one foot in the base flood elevation; or
- c. Development relocates or alters the channel.

Within six months of the completion of the development, the applicant shall submit to FEMA all scientific and technical data necessary for a Letter of Map Revision.

(10) Perform site inspections to ensure compliance with the standards of this chapter.

(11) Forward all requests for variances to the Council for consideration. Ensure all requests include the information ordinarily submitted with applications, as well as any additional information deemed necessary to the Council.

2. Floodplain Development Permit.

A. Permit Required. A Floodplain Development Permit issued by the Administrator shall be secured prior to any floodplain development (any manmade change to improved and unimproved real estate, including but not limited to buildings or other structures, mining, filling, grading, paving, storage of material and equipment, excavation, or drilling operations), including the placement of factory-built homes.

B. Application for Permit. Application shall be made on forms furnished by the Administrator and shall include the following:

- (1) Description of the work to be covered by the permit for which application is to be made.
- (2) Description of the land on which the proposed work is to be done (e.g., lot, block, track, street address or similar description) that will readily identify and locate the work to be done.
- (3) Location and dimensions of all structures and additions.
- (4) Indication of the use or occupancy for which the proposed work is intended.
- (5) Elevation of the base flood.
- (6) Elevation (in relation to North American Vertical Datum 1988 of the lowest floor (including basement) of structures or of the level to which a structure is to be floodproofed.

(7) For structures being improved or rebuilt, the estimated cost of improvements and market value of the structure prior to the improvements.

(8) Such other information as the Administrator deems reasonably necessary (e.g., drawings or a site plan) for the purpose of this chapter.

C. Action on Permit Application. The Administrator shall, within a reasonable time, make a determination as to whether the proposed floodplain development meets the applicable standards of this chapter and shall approve or disapprove the application. For disapprovals, the applicant shall be informed, in writing, of the specific reasons therefor. The Administrator shall not issue permits for variances except as directed by the Council.

D. Construction and Use to Be as Provided in Application and Plans. Floodplain Development Permits based on approved plans and applications authorize only the use, arrangement, and construction set forth in such approved plans and applications and no other use, arrangement, or construction. Any use, arrangement, or construction at variance with that authorized shall be deemed a violation of this chapter. The applicant shall be required to submit certification by a professional engineer or land surveyor, as appropriate, registered in the State, that the finished fill, structure floor elevations, floodproofing, or other flood protection measures were accomplished in compliance with the provisions of this chapter, prior to the use or occupancy of any structure.

**160.05 FLOODPLAIN MANAGEMENT STANDARDS.** All development must be consistent with the need to minimize flood damage and meet the following applicable performance standards. Where base flood elevations have not been provided in the Flood Insurance Study, the Iowa Department of Natural Resources shall be contacted to determine: (i) whether the land involved is either wholly or partly within the floodway or floodway fringe; and (ii) the base flood elevation. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determination. Review by the Iowa Department of Natural Resources is not required for the proposed construction of new or replacement bridges or culverts where: (i) the bridge or culvert is located on a stream that drains less than two square miles; and (ii) the bridge or culvert is not associated with a channel modification that constitutes a channel change as specified in 567 IAC 71.2(2), Iowa Administrative Code.

1. All Development. All development within the special flood hazard areas shall:
  - A. Be designed and adequately anchored to prevent flotation, collapse, or lateral movement.
  - B. Use construction methods and practices that will minimize flood damage.
  - C. Use construction materials and utility equipment that are resistant to flood damage.
  - D. Obtain all other necessary permits from federal, State, and local governmental agencies including approval when required from the Iowa Department of Natural Resources.
2. Residential Structures. All new or substantially improved residential structures shall have the lowest floor, including basement, elevated a minimum of one foot above

the base flood elevation. Construction shall be upon compacted fill which shall, at all points, be no lower than one foot above the base flood elevation and extend at such elevation at least 18 feet beyond the limits of any structure erected thereon. Alternate methods of elevating (such as piers or extended foundations) may be allowed subject to favorable consideration by the City Council, where existing topography, street grades, or other factors preclude elevating by fill. In such cases, the methods used must be adequate to support the structure as well as withstand the various forces and hazards associated with flooding. All new residential structures located in areas that would become isolated due to flooding of surrounding ground shall be provided with a means of access that will be passable by wheeled vehicles during the base flood. However, this criterion shall not apply where the Administrator determines there is sufficient flood warning time for the protection of life and property. When estimating flood warning time, consideration shall be given to the criteria listed in 567-75.2(3), Iowa Administrative Code.

3. Nonresidential Structures. All new or substantially improved nonresidential structures shall have the lowest floor (including basement) elevated a minimum of one foot above the base flood elevation, or together with attendant utility and sanitary systems, be flood proofed to such a level. When floodproofing is utilized, a professional engineer registered in the State of Iowa shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood; and that the structure, below the base flood elevation is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum 1988) to which any structures are floodproofed shall be maintained by the Administrator.

4. All New and Substantially Improved Structures.

A. Fully enclosed areas below the lowest floor (not including basements) that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or meet or exceed the following minimum criteria:

- (1) A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.
- (2) The bottom of all openings shall be no higher than one foot above grade.
- (3) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided they permit the automatic entry and exit of floodwaters.

Such areas shall be used solely for parking of vehicles, building access and low damage potential storage.

B. New and substantially improved structures must be designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.

- C. New and substantially improved structures must be constructed with electric meter, electrical service panel box, hot water heater, heating, air conditioning, ventilation equipment (including ductwork), and other similar machinery and equipment elevated or flood-proofed to a minimum of one foot above the base flood elevation.
- D. New and substantially improved structures shall be constructed with plumbing, gas lines, water meters, gas meters, and other similar service utilities, either elevated (or, in the case of non-residential structures, optionally flood-proofed to) a minimum of one foot above the base flood elevation or designed to be watertight and withstand inundation to such a level.
5. Factory-Built Homes.
- A. All new and substantially improved factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be elevated on a permanent foundation such that the lowest floor of the structure is a minimum of one foot above the base flood elevation.
- B. All new and substantially improved factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. Anchorage systems may include, but are not limited to, use of over-the-top or frame ties to ground anchors as required by the State Building Code.
6. Utility and Sanitary Systems.
- A. On-site waste disposal and water supply systems shall be located or designed to avoid impairment to the system or contamination from the system during flooding.
- B. All new and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system as well as the discharge of effluent into flood waters. Wastewater treatment facilities (other than on-site systems) shall be provided with a level of flood protection equal to or greater than one foot above the base flood elevation.
- C. New or replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system. Water supply treatment facilities (other than on-site systems) shall be provided with a level of protection equal to or greater than one foot above the base flood elevation.
- D. Utilities such as gas or electrical systems shall be located and constructed to minimize or eliminate flood damage to the system and the risk associated with such flood damaged or impaired systems.
7. Storage of Materials and Equipment. Storage of equipment and materials that are flammable, explosive, or injurious to human, animal or plant life is prohibited unless elevated a minimum of one foot above the base flood elevation. Other material and equipment must either be similarly elevated or: (i) not subject to major flood damage and be anchored to prevent movement due to flood waters; or (ii) readily removable from the area within the time available after flood warning.
8. Flood Control Structures. Flood control structural works such as levees, flood walls, etc. shall provide, at a minimum, protection from the base flood with a minimum

of three feet of design freeboard and shall provide for adequate interior drainage. In addition, structural flood control works shall be approved by the Department of Natural Resources.

9. Watercourse Alterations. Watercourse alterations or relocations must be designed to maintain the flood carrying capacity within the altered or relocated portion. In addition, such alterations or relocations must be approved by the Department of Natural Resources.

10. Subdivisions. Subdivisions (including factory-built home parks and subdivisions) shall be consistent with the need to minimize flood damages and shall have adequate drainage provided to reduce exposure to flood damage. Development associated with subdivision proposals (including the installation of public utilities) shall meet the applicable performance standards of this chapter. Subdivision proposals intended for residential use shall provide all lots with a means of access which will be passable by wheeled vehicles during the base flood. Proposals for subdivisions greater than five acres or 50 lots (whichever is less) shall include base flood elevation data for those areas located within the Special Flood Hazard Area.

11. Accessory Structures to Residential Uses. Detached garages, sheds, and similar structures that are incidental to a residential use are exempt from the base flood elevation requirements where the following criteria are satisfied.

A. The structure shall be designed to have low flood damage potential. Its size shall not exceed 600 square feet in size. Those portions of the structure located less than one foot above the BFE must be constructed of flood-resistant materials.

B. The structure shall be used solely for low flood damage potential purposes such as vehicle parking and limited storage. The structure shall not be used for human habitation.

C. The structure shall be constructed and placed on the building site so as to offer minimum resistance to the flow of floodwaters.

D. The structure shall be firmly anchored to resist flotation, collapse, and lateral movement.

E. The structure's service facilities such as electrical and heating equipment shall be elevated or floodproofed to at least one foot above the base flood elevation.

F. The structure's walls shall include openings that satisfy the provisions of Subsection 4(A) of this section.

Exemption from the base flood elevation requirements for such a structure may result in increased premium rates for flood insurance coverage of the structure and its contents.

12. Recreational Vehicles.

A. Recreational vehicles are exempt from the requirements of Subsection 5 of this section regarding anchoring and elevation of factory-built homes when the following criteria are satisfied.

(1) The recreational vehicle shall be located on the site for less than 180 consecutive days; and

(2) The recreational vehicle must be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system and is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

B. Recreational vehicles that are located on the site for more than 180 consecutive days or are not ready for highway use must satisfy requirements of Subsection 5 of this section regarding anchoring and elevation of factory-built homes.

13. Pipeline Crossings. Pipeline river and stream crossings shall be buried in the streambed and banks, or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering.

14. Maximum Damage Potential Development. All new or substantially improved maximum damage potential development shall have the lowest floor (including basement) elevated a minimum of one foot above the elevation of the 500-year flood, or together with attendant utility and sanitary systems, be floodproofed to such a level. When floodproofing is utilized, a professional engineer registered in the State of Iowa shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood; and that the structure, below the base flood elevation is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum 1988) to which any structures are flood proofed shall be maintained by the Administrator. Where 0.2 percent chance flood elevation data has not been provided in the Flood Insurance Study, the Iowa Department of Natural Resources shall be contacted to compute such data. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determinations.

#### **160.06 VARIANCE PROCEDURES.**

1. The Council may authorize upon request in specific cases such variances from the terms of this chapter that will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this chapter will result in unnecessary hardship. Variances granted must meet the following applicable standards.

A. Variances shall only be granted upon: (i) a showing of good and sufficient cause; (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant; and (iii) a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local codes or ordinances.

B. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood would result. Consideration of the effects of any development on flood levels shall be based upon the assumption that an equal degree of development would be allowed for similarly situated lands.

C. Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

- D. In cases where the variance involves a lower level of flood protection for structures than what is ordinarily required by this chapter, the applicant shall be notified in writing over the signature of the Administrator that: (i) the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as \$25.00 for \$100.00 of insurance coverage; and (ii) such construction increases risks to life and property.
- E. All variances granted shall have the concurrence or approval of the Department of Natural Resources.
2. Factors upon Which the Decision of the Council Shall Be Based. In passing upon applications for variances, the Council shall consider all relevant factors specified in other sections of this chapter and:
- A. The danger to life and property due to increased flood heights or velocities caused by encroachments.
- B. The danger that materials may be swept on to other land or downstream to the injury of others.
- C. The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination, and unsanitary conditions.
- D. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.
- E. The importance of the services provided by the proposed facility to the City.
- F. The requirements of the facility for a floodplain location.
- G. The availability of alternative locations not subject to flooding for the proposed use.
- H. The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.
- I. The relationship of the proposed use to the comprehensive plan and floodplain management program for the area.
- J. The safety of access to the property in times of flood for ordinary and emergency vehicles.
- K. The expected heights, velocity, duration, rate of rise and sediment transport of the flood water expected at the site.
- L. The cost of providing governmental services during and after flood conditions, including maintenance and repair of public utilities (sewer, gas, electrical, and water systems), facilities, streets, and bridges.
- M. Such other factors which are relevant to the purpose of this chapter.
3. Conditions Attached to Variances. Upon consideration of the factors listed above, the Council may attach such conditions to the granting of variances as it deems necessary to further the purpose of this chapter. Such conditions may include, but not necessarily be limited to:
- A. Modification of waste disposal and water supply facilities.
- B. Limitation of periods of use and operation.

- C. Imposition of operational controls, sureties, and deed restrictions.
- D. Requirements for construction of channel modifications, dikes, levees, and other protective measures, provided such are approved by the Department of Natural Resources and are deemed the only practical alternative to achieving the purpose of this chapter.
- E. Floodproofing measures shall be designed consistent with the flood protection elevation for the particular area, flood velocities, duration, rate of rise, hydrostatic and hydrodynamic forces, and other factors associated with the regulatory flood. The Council shall require that the applicant submit a plan or document certified by a registered professional engineer that the floodproofing measures are consistent with the regulatory flood protection elevation and associated flood factors for the particular area.

**160.07 NONCONFORMING USES.**

1. A structure or the use of a structure or premises which was lawful before the passage or amendment of the ordinance codified in this chapter, but which is not in conformity with the provisions of this chapter, may be continued subject to the following conditions:
  - A. If such use is discontinued for six consecutive months, any future use of the building premises shall conform to this chapter.
  - B. Uses or adjuncts thereof that are or become nuisances shall not be entitled to continue as nonconforming uses.
  - C. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than 50 percent of the market value of the structure before the damage occurred, unless it is reconstructed in conformity with the provisions of this chapter. This limitation does not include the cost of any alteration to comply with existing State or local health, sanitary, building, or safety codes or regulations, or the cost of any alteration of a structure listed on the National Register of Historic Places, provided that the alteration shall not preclude its continued designation.
2. Except as provided in Section 160.07(1)(B), any use which has been permitted as a variance shall be considered a conforming use.

**160.08 PENALTIES FOR VIOLATION.** Violations of the provisions of this chapter or failure to comply with any of the requirements shall constitute a misdemeanor. Any person who violates this chapter or fails to comply with any of its requirements shall upon conviction thereof be fined not more than \$500.00 or imprisoned for not more than 30 days. Nothing herein contained shall prevent the City from taking such other lawful action as is necessary to prevent or remedy violation.

**160.09 AMENDMENTS.** The regulations and standards set forth in this chapter may from time to time be amended, supplemented, changed, or repealed. No amendment, supplement, change, or modification shall be undertaken without prior approval of the Department of Natural Resources.

Such streets shall not be longer than 500 feet and shall terminate with a turn-around, having an outside roadway diameter of at least 80 feet and a street property line diameter of at least 100 feet. The right-of-way width of the straight portion of such streets shall be a minimum of 50 feet. The property line at the intersection of the turn-around and the straight portion of the street shall be rounded at a radius of not less than 20 feet.
4. Frontage Streets.
- A. Where a subdivision abuts or contains an existing or proposed arterial street, the governing body may require marginal access streets, reverse frontage with screen planting contained in a nonaccess reservation along the rear property line, deep lots with rear service alleys, or such other treatment as may be necessary for adequate protection of residential properties and to afford separation of through and local traffic.
- B. Where a subdivision borders on or contains a railroad right-of-way or limited access highway right-of-way, the governing body may require a street approximately parallel to and on each side of such right-of-way, at a distance suitable for the appropriate use of the intervening land, as for park purposes in residential districts. Such distances shall also be determined with due regard for the requirements of approach grades and future grade separations.
5. Half-Streets. Half-streets shall be prohibited except where essential to the reasonable development of the subdivision in conformity with the other requirements of these regulations, and where the governing body finds it will be practicable to require the dedication of the other half when the adjoining property is subdivided. Wherever a half-street is adjacent to a tract to be subdivided, the other half of the street shall be platted within such tract.
6. Street Geometrics.
- A. Street jogs with centerline offsets of less than 125 feet shall be avoided.

When connecting street lines deflect from each other at any one point by more than 10 degrees, they shall be connected by a curve with a radius adequate to insure a sight distance of not less than 200 feet for minor and collector streets, and of such greater radii as the governing body shall determine for special cases.

7. Intersections.
  - A. Insofar as is practical, acute angles between streets at their intersection are to be avoided.
  - B. Streets shall be laid out so as to intersect as nearly as possible at right angles and no street shall intersect any other street at less than 60 degrees.
  - C. Property lines at street intersections shall be rounded with a radius often 10 feet, or of a greater radius where the governing body may deem it necessary. The governing body may permit comparable cutoffs or chords in place of rounded corners.
8. Street Names. Streets that are in alignment with others already existing and named shall bear the name of the existing streets. The proposed names of new streets shall not duplicate or sound similar to existing street names. Street names shall be subject to the approval of the governing body.
9. Street grades.

  - B. No street grade shall be less than one-half of one percent.
10. Alleys.
  - A. Alleys shall be provided in commercial and industrial districts, except that the governing body may waive this requirement where other definite and assured provision is made for service access, such as off-street loading, unloading, and parking consistent with and adequate for the uses proposed.
  - B. The width of an alley shall be 20 feet.
  - C. Alley intersections and sharp changes in alignment shall be avoided, but where necessary, corners shall be cut off sufficiently to permit safe vehicular movements.

11. Blocks.
  - A. No block may be more than 1,320 feet or less than 500 feet in length between the center lines of intersecting streets, except where, in the opinion of the governing body, extraordinary conditions unquestionably justify a departure from these limits.
  - B. In blocks over 700 feet in length, the governing body may require at or near the middle of the block a public way or easement of not less than 10 feet in width for use by pedestrians and/or as an easement for public utilities.
12. Lots.
  - A. The lot size, width, depth, shape, and orientation shall be appropriate for the location of the subdivision and for the type of development and use contemplated.

- B. Minimum lot dimensions and sizes.
    - (1) Residential lots where not served by public sewer shall not be less than 80 feet wide nor less than 10,000 square feet in area.
    - (2) Depth and width of properties reserved or laid out for commercial and industrial purposes shall be adequate to provide for the off-street service and parking facilities required by the type of use and development contemplated.
    - (3) Corner lots for residential use shall have an extra 10 feet of width to permit appropriate building setback from and orientation to both streets.
  - C. The subdividing of the land shall be such as to provide, by means of public street, each lot with satisfactory access to an existing public street.
  - D. Double frontage and reverse frontage lots shall be avoided except where essential to provide separation of residential development from traffic arteries or to overcome specific disadvantages of topography and orientation. A planting screen easement of at least 10 feet and across which there shall be no right of access, shall be provided along the line of lots abutting such a traffic artery or other disadvantageous use.
  - E. Side lot lines shall be substantially at right angles to straight street lines or radial to curved street lines.

*(Code of Iowa, Sec. 354.11[4])*

10. Profiles, typical cross sections, and specifications of street improvements and utility systems, to show the location, size, and grade. These should be shown on a 50 foot horizontal scale and a five foot vertical scale with west or south at the left.

11. A certificate by the Clerk or similar official that all required improvements and installations have been completed, or that a performance bond guaranteeing completion has been approved by the City Attorney and filed with the Clerk, or that the governing body has agreed that the City will provide the necessary improvements and installations and assess the costs against the subdivider or future property owners in the subdivision.

12. The encumbrance bond, if any, as specified in Sections 354.11 and 354.12 of the *Code of Iowa*.

**170.26 APPROVE OR DISAPPROVE FINAL PLAT.** Upon receipt of the plat, but not more than 60 days following submission of the final plat to the Clerk as stated in Section 170.23, the governing body shall either approve or disapprove the final plat.

*(Code of Iowa, Sec. 354.8)*

Recorder and shall file satisfactory evidence of such recording before the City shall recognize the plat as being in full force and effect.

**170.27 VARIANCES.** Where in the case of a particular proposed subdivision, it can be shown that strict compliance with the requirement of this chapter would result in extraordinary hardship to the subdivider, because of unusual topography or other conditions, the governing body may vary, modify, or waive the requirements so that substantial justice may be done and the public interest secure. Provided, however, that such variance, modification, or waiver will not have the effect of nullifying the intent and purpose of this chapter. Such variances and waivers may be granted only by the affirmative vote of three-fourths of the members of the governing body.

**170.28 CHAIN SUBDIVIDING.** No more than two building permits for each separate tract existing at the effective date of this chapter shall be issued unless the tract has been platted in accordance with this chapter; except that this provision shall not limit the number of building permits that may be issued for accessory buildings as defined by the restricted residence district ordinance or additions or improvements to a main or accessory building already legally located upon said tract.

# APPENDIX TO CODE OF ORDINANCES

---

## USE AND MAINTENANCE OF THE CODE OF ORDINANCES

The following information is provided to assist in the use and proper maintenance of this Code of Ordinances.

### DISTRIBUTION OF COPIES

**1. OFFICIAL COPY.** The “OFFICIAL COPY” of the Code of Ordinances must be kept by the City Clerk and should be identified as the “OFFICIAL COPY.”

**2. DISTRIBUTION.** Other copies of the Code of Ordinances should be made available to all persons having a relatively frequent and continuing need to have access to ordinances which are in effect in the City as well as reference centers such as the City Library, County Law Library, and perhaps the schools.

**3. SALE.** The sale or distribution of copies in a general fashion is not recommended as experience indicates that indiscriminate distribution tends to result in outdated codes being used or misused.

**4. RECORD OF DISTRIBUTION.** The City Clerk should be responsible for maintaining an accurate and current record of persons having a copy of the Code of Ordinances. Each official, elected or appointed, should return to the City, upon leaving office, all documents, records and other materials pertaining to the office, including this Code of Ordinances.

*(Code of Iowa, Sec. 372.13[4])*

### NUMBERING OF ORDINANCES AMENDING THE CODE OF ORDINANCES

It is recommended that a simple numerical sequence be used in assigning ordinance numbers to ordinances as they are passed. For example, if the ordinance adopting the Code of Ordinances is No. 163, we would suggest that the first ordinance passed changing, adding to, or deleting from the Code be assigned the number 164, the next ordinance be assigned the number 165, and so on. We advise against using the Code of Ordinances numbering system for the numbering of ordinances.

**RETENTION OF AMENDING ORDINANCES**

Please note that two books should be maintained: (1) the Code of Ordinances; and (2) an ordinance book. We will assist in the maintenance of the Code of Ordinances book, per the Supplement Agreement, by revising and returning appropriate pages for the Code of Ordinances book as required to accommodate ordinances amending the Code. The City Clerk is responsible for maintaining the ordinance book and must be sure that an original copy of each ordinance adopted, bearing the signatures of the Mayor and Clerk, is inserted in the ordinance book and preserved in a safe place.

**SUPPLEMENT RECORD**

A record of all supplements prepared for the Code of Ordinances is provided in the front of the Code. This record will indicate the number and date of the ordinances adopting the original Code and of each subsequently adopted ordinance which has been incorporated in the Code. For each supplemented ordinance, the Supplement Record will list the ordinance number, date, topic, and chapter or section number of the Code affected by the amending ordinance. A periodic review of the Supplement Record and ordinances passed will assure that all ordinances amending the Code have been incorporated therein.

**DISTRIBUTION OF SUPPLEMENTS**

Supplements containing revised pages for insertion in each Code will be sent to the Clerk. It is the responsibility of the Clerk to see that each person having a Code of Ordinances receives each supplement so that each Code may be properly updated to reflect action of the Council in amending the Code.

**AMENDING THE CODE OF ORDINANCES**

The Code of Ordinances contains most of the laws of the City as of the date of its adoption and is continually subject to amendment to reflect changing policies of the Council, mandates of the State, or decisions of the Courts. Amendments to the Code of Ordinances can only be accomplished by the adoption of an ordinance.

*(Code of Iowa, Sec. 380.2)*

The following forms of ordinances are recommended for making amendments to the Code of Ordinances:

**ADDITION OF NEW PROVISIONS**
